- 2. Assisted the University committee.

GPLAU

This semester the GPLAU committee focused our efforts on Georgia College's celebration of the university's 125th anniversary. Next year, the school will be hosting events throughout the year. This semester we sat in on some Quasquicentennial meetings to give student input to the celebration. Our contributions included a list of 125 things to do in Milledgeville, which will contribute to the updated blue book that will be released next year. We also suggested that the committee consider a time capsule - to which they agreed and added to the itinerary. The time capsule will include items donated from every RSO that wishes to contribute. It will also be an open faced time capsule, displayed in a case rather than buried in the ground.

An unfinished project that we started was the organization of a master list of SGA alumni to be used for an upcoming SGA reunion. We searched for contacts in old records, alumni relations, and orgsync as well as compiling a list of current SGA members and their contact information.

Technology

- 1. Promoted a technology survey that made it so GC could compare with other universities.
- 2. Helped promote the implementation of Microsoft 365 as well as the idea of including instructions in freshman acceptance/ orientation packet.
- 3. Solidified a session in Week of Welcome for Dr. Orr to talk to freshman.
- 4. Served on a variety of committees such as Academic Technology Advisory Committee and Student Technology Fee Committee, giving feedback to administrators.
- 5. Met with Dr. Orr frequently to be a voice for the student body.

- 6. Created a flyer with FAQ's and contact information. (Biggest project)
- 7. Promoted the introduction of the new Wi-Fi connection, GC wireless.
- 8. Was part of a pilot study for Microsoft 365.

Student Code of Conduct Review

1. SCC Committee wrote a 5 page document that outlined the amendments that we would like to see made to the code of conduct and honor code.
