There are many costs associated with attending BMCC. Tuition, fees, books, supplies, and travel to and from school are just some of these school-related expenses. Financial aid is money that comes from the federal, state and city governments to help you meet these costs.

Part of the mission of the Financial Aid Office is to ensure that every eligible BMCC student has access to the financial resources they need to attain a college education. Some of the services we provide are to:

- assist you and your family in planning for and meeting the expenses associated with attending BMCC
- furnish information about a range of federal, state, city and institutional sources of financial assistance
- provide the counseling and other services that you and your family need to establish and maintain eligibility for federal, state, city and institutional award programs

In order for the Financial Aid Office to assist you, you must take the first step! Your eligibility for financial aid can only be determined from processed financial aid applications. If you want financial aid, you should submit an application even if you think you might not be eligible.

To learn more about what kinds of financial assistance are available and how to apply, check out the financial aid information in the How Do I section, page 121, of this handbook. Visit our online financial aid office at

www.bmcc.cuny.edu/finaid/ for eligibility requirements, application filing procedures, office contact information and a schedule of available application labs and workshops.

How do I apply for financial aid?

Apply for most types of federal and state financial aid by completing a Free Application for Federal Student Aid (FAFSA) at: www.fafsa.ed.gov. If you file FAFSA-on-the-Web, you will be able to link directly to TAP-on-the-Web so that you may apply for New York State tuition assistance grants. We encourage online filing because it is the quickest, easiest and most accurate way to apply.

You may also apply using a paper FAFSA which you may obtain from the Financial Aid Office. When your paper FAFSA is processed, you will receive instructions on how to apply for New York State tuition assistance.

What if I need access to a computer?

If you need access to a computer, use the campus cyber-cafés, open access web labs, or the Financial Aid Web Lab.

When should I apply for financial aid?

Allow at least 4-6 weeks time to get your applications processed. If the Bursar's Office does not have enough information for your awards to print on your bill, you may have to settle the bill from your own resources until processing of your financial aid applications is completed.

Do I have to reapply for financial aid every year?

Yes. Financial aid is awarded for a single academic year and is based on your family's economic situation during the previous year. Continuing students must reapply as early as possible in the spring semester for the following academic year.

Financial Aid Application Deadlines

Try to meet the deadlines posted below. You may still apply for financial aid if you miss these deadlines, but funds from some sources may not be available to late filers. Some award programs with limited funding are awarded on a first-come, first-served basis.

For Fall Admission

January 2

Assemble your/your spouse's and/or your parents' income records. If you are not required to file federal tax returns, file your FAFSA now!

March 15

File your/your spouse's and/or your parents' federal income tax returns.

April 15

- File your FAFSA-on-the-Web at www.fafsa.ed.gov.
- Use your (and your spouse's, if married) and your parents' income documents or federal tax returns (if dependent).
- File TAP-on-the-Web using the link for New York State residents on the FAFSA Confirmation Page.

April 30

If you did not apply for TAP when you filed your FAFSA, file TAP-on-the-Web at: www.tapweb.org/totw/. You must have received Student Aid Report results from your FAFSA before using this link to apply for TAP.

Filing after April 30th for fall admission means that you risk having to pay a fall tuition bill before finding out your financial aid eligibility.

For Spring Admission

October 31

- File your FAFSA-on-the-Web at www.fafsa.ed.gov.
- Use your (and your spouse's, if married) and your parents' income documents or federal tax returns (if dependent).
- File TAP-on-the-Web using the link for New York State residents on the FAFSA Confirmation Page.

November 30

If you did not apply for TAP when you filed your FAFSA, file TAP-on-the-Web at: www.tapweb.org/totw/. You must have received Student Aid Report results from your FAFSA before using this link to apply for TAP.

Filing after November 30th for spring admission means that you risk having to pay a spring tuition bill before finding out your financial aid eligibility.

Financial Aid Award Deadlines

- Federal Award Programs—with few exceptions, issues with your FAFSA must be resolved and resolvable with the Financial Aid Office by your last day of attendance in any award period (usually the semester).
- Federal Direct Loan Requests—must be received by the Financial Aid Office no later than three weeks before the end of the fall or spring terms.
- New York State TAP—Issues with your NYS TAP application must be resolved by June 30 of the award year.
- Aid for Part-Time Study (APTS)—An application must be on file before
 the end of the third week of your first semester of attendance within the
 award year.

The deadlines posted above are meant to give you enough time to have your applications processed and any problems with your application information corrected before your tuition bill due date. Allow at least 4-6 weeks processing time for your financial aid application(s).

If the Bursar's Office does not have enough information for your awards to print on your bill, you may have to settle the bill from your own resources until processing of your financial aid applications is completed.

Often, the Financial Aid Office must request additional information or documents to complete the processing of your application. Please respond promptly to any requests for additional information. Most delays in processing result from delayed responses. Don't wait until the day your bill is due. It can take 2 weeks or longer to process you for an award AFTER you submit additional information.

Is financial aid available for the summer?

TAP and Pell may be available to help pay for summer classes if you meet certain requirements:

- You may be eligible for a summer PELL grant regardless of any PELL grant usage in the previous fall or spring semesters.
- If you earned 24 degree credits in the prior fall and spring terms, and have reapplied for TAP for the new academic year, you may be eligible for a TAP payment for summer study.

Information about summer awards may not always be available at the time you register for summer classes. You may have to pay your tuition from other resources and receive a financial aid refund from the College at a later time

For more information about your eligibility for summer financial aid, read our information guide entitled "Summer Financial Aid" posted on our website or available from the Financial Aid Office.

How does withdrawing from classes affect my financial aid?

Financial aid is awarded with the expectation that you will attend your classes for the entire period for which the aid was awarded. Withdrawing from class can have both short-term and long-range effects on your financial aid eligibility. An immediate short-term effect can be the elimination or reduction of your eligibility for a payment or payments in your current semester. Since withdrawals will not generally eliminate your tuition charges for the term, you may discover that your withdrawal causes you an unexpected financial hardship. There may also be long-range effects on your financial aid eligibility due to withdrawing from class. For example, you may not be able to meet one of the satisfactory academic performance requirements next semester or several semesters from now because of class withdrawals that happened in the current semester.

Before you withdraw from a class or classes, we suggest that you speak with your instructors and an academic advisor. Decisions related to your academic program should not be based solely on financial considerations, and an advisor can perhaps lead you to a solution that doesn't require you to withdraw.

Tips on How to Succeed in College

Curriculum Planning

Curriculum planning, rather than semester planning, allows you to see the bigger picture and map out your academic career at BMCC. Curriculum planning will force you to ask yourself what you want to accomplish at BMCC and how long it will take to reach those goals. You should meet with an academic or faculty advisor and plan your academic career as soon as possible.

Making Academic Changes

Before making an academic change, make sure you have researched the consequences of your decision. Speak with a professor, an advisor, a counselor, anyone you feel comfortable speaking with, but make sure you get the facts first. But what are some academic changes?

- Withdrawing from courses
- Dropping courses
- Change of major
- · Change of semester program
- Taking courses out of your curriculum
- Transferring to another college

Graduation & Transfer Checklist

- 1. Register for your last semester's courses and make sure you will complete all of your program requirements.
- 2. Apply for graduation. (Check with the Registrar's Office for the appropriate deadline.)
- 3. Receive your graduation audit from the Registrar's Office.
- 4. Research the requirements for your intended transfer institution.
- File a transfer application by the appropriate deadlines. Please visit
 www.cuny.edu for the transfer deadline for fall and spring admission to
 CUNY senior institutions. For all other institutions, please check directly
 with them.
- 6. Request an official BMCC transcript be sent to your intended institution.

Grades ABCDF? 4.0? What's 3.2?

How do I compute my Grade Point Average (GPA)?

After you complete a course, you receive a letter grade. Most letter grades have a numerical point value (see Grading System Chart below).

Grade Conversion Chart

Grade	= Quality Points
А	4.0
A-	3.7
B+	3.3
В	3.0
B-	2.7
C+	2.3
С	2.0
C-	1.7
D+	1.3
D	1.0
D-	0.7
F	0.0

How to Calculate Your GPA

To calculate your semester GPA (grade point average), follow these easy five steps, also called DMAAD.

- 1. Determine the point value for each grade earned (remedial courses don't calculate into GPA).
- 2. Multiply the point value by the number of credits. This will give you your earned points.
- 3. Add the total number of credits attempted.
- 4. Add the total quality points.
- 5. Divide the total quality points by the total number of credits attempted to get your GPA.

GPA Calculation Example

Course	Final Grade	Quality Points		Credits		Points Earned
English I	B+	3.3	Х	3	=	9.9
Accounting I	Α	4.0	Χ	4	=	16.0
Intro. to Business	WU	0.0	Х	3	=	0.0
Art Survey I	A-	3.7	Χ	2	=	7.4
Fundamentals of Speech	В	3.0	Х	3	=	9.0
Health Education	F	0.0	Χ	2	=	0.0
Totals				17		42.3

$$GPA = \frac{Total\ Points\ Earned}{Credits\ Attempted} = \frac{42.3}{17.0} = 2.49$$

To compute your GPA online, use our GPA Calculator on the web at http://www.bmcc.cuny.edu/degreeworks/SD_HelpGPACalculator.html
If you wish further explanation regarding grade point average, see your counselor/academic advisor in the Counseling Center or your faculty advisor. You can also access your grades by visiting the College web site at www.bmcc.cuny.edu and clicking on "Panther."

INC	Semester's work incomplete	_
AUD	Course not taken for credit or grade: "AUD" Audit appears on transcript	_
REP	Indicates a course already taken and successfully completed with a grade of "C" or better	-
FIN	"F" from incomplete	0.0
Z	No grade submitted by the instructor for course taken	-
TR	Transfer credit from another institution or courses taken on permit at a non-CUNY college	_

^{*} An "NC" grade can be assigned to a first semester freshman who has completed a course with a "D" (with the student's permission) or an "F" grade. An "NC" grade can also be assigned to a Nursing course one time only during the 2nd-4th clinical semesters, when a student has earned a grade lower than "C." Students who transfer to another institution should note that "NC" grades may be treated as "F' grades.

Academic Success Guide

The information contained in this section highlights several important aspects of academic life at BMCC. These aspects are presented to help you focus on achieving academic success.

The CUNY Placement Exams

All students who are accepted to BMCC must first take the CUNY Placement Exams in reading, English writing, and mathematics. Your performance on these placement exams will determine if you need developmental skill or remediation assistance.

Placement Exam Exemptions: There are several ways in which you may be given an exemption from taking the CUNY Placement Exams. Please find below the list of qualifications that must be met in order to receive exemption.

Exemption Criteria: You may be exempt from the CUNY Reading and Writing Tests if you have:

- SAT 1 Verbal score of 480 or greater
- SAT Reasoning Test Critical Reading score of 480 or greater (Prior to March 2005, the Critical Reading section was known as the SAT 1 Verbal section.)
- ACT English score of 20 or greater
- New York State Regents score in English of 75 or greater
- Bachelor's Degree from an accredited domestic institution
- 45 or more credits from an accredited domestic institution outside of CUNY

You may be exempt from the CUNY Mathematics Test based on the following evidence:

- SAT 1 Math score of 480 or greater
- SAT Reasoning Test Math score of 480 or greater
- ACT Math score of 20 or greater
- New York State Regents score in Math A or B, or Sequential II or III of 75 or greater
- Bachelor's Degree from an accredited domestic institution
- 45 or more credits from an accredited domestic institution outside of CUNY

If you are eligible for a waiver, you must submit all documentation (eg. official transcripts, SAT scores, etc.) in support of waivers to the Testing Office before registration. If you have taken the CUNY Tests at another CUNY college or through a high school program, please inform the Testing Office of the results before registration. All official documentation must be mailed or hand-delivered in a sealed envelope to the Testing Office, room N700.

After you have taken the CUNY Tests or submitted documentation in support of a waiver, the Registrar's Office will send you a letter setting an appointment for advisement and registration.

Other Placement Exams

Math Placement Exam (MAT056 & MAT206): If you are proficient in Math and are exempt from the remedial Math you were tested on during the Placement exams, you may go to the Math Lab, room S511, to take the Intermediate Algebra or Pre-Calculus exams, which are prerequisites for upper level math courses, some science, and other selected courses. MAT056 and at least one upper-level Math course (200 or above) are required for Engineering Science, Childhood Education, Bilingual Childhood Education, Science, Mathematics, Computer Science, and Business Administration.

Modern Foreign Language Exam (Spanish, French, Italian, Chinese): If you speak any of the languages listed above and want to take a course in that same language, you will need to take a Language Placement exam PRIOR to registration. You can take the exam in the Modern Language Department in room N540 or at the Modern Language table during regular registration.

Immersion Program

If you are a newly admitted student who needs to take a developmental course(s) because of your placement scores, this program will provide you with an opportunity to acquire basic skills, complete your basic skills obligations, and get a head start on your college experience. The program:

- Offers basic skills courses to improve your proficiency in areas such as English (writing), English as a Second Language, Academic & Critical Reading, and Mathematics;
- Provides an opportunity to enroll in one or more courses to reduce or eliminate the number of basic skills courses you will be required to take in the fall or spring semester;
- Provides counseling, tutoring and other support services;
- Offers an opportunity to work with concerned and committed faculty in small class-size settings.

Transfer Students

As a transfer student, it is important that you become familiar with BMCC's current transfer credit policy since transfer credit requirements vary from one institution to another. For details, visit: http://www.bmcc.cuny.edu/admissions/apply/transfer.html. Be certain to speak with an Admissions counselor to find out what – if any – transfer credits BMCC will accept prior to registration. This will reduce the chance of you repeating courses at BMCC that you have taken from your prior college. It is also important that you speak with the Testing Office to find out if you are required to sit for the CUNY placement exams.

International Students

As an international student, you will have to acquaint yourself with the policies and procedures of not only BMCC, but also United States Citizenship and Immigration Services (USCIS). If you have a bachelor's degree or higher from a non - U.S. college that is acknowledged by CUNY's University Application Processing Center and/or Office of Admissions Services, you are EXEMPT from remedial or developmental skills requirements. However, you MUST still take the CUNY placement exams. If your scores indicate that you need further instruction in Basic English Reading, Writing, and/or Math, then you are required to register for the appropriate course(s).

There are many support services available to you in your academic journey, especially the International Student Office, located within the Admissions Office in room S300. It is critical that you familiarize yourself with this office and its guidelines. But if you still have questions, reach out to the faculty or staff who will be happy to help you in any way they can.

Classroom Etiquette

Now that you are a college student enrolled at BMCC, you are expected to present yourself and act in and outside of the classroom the way a responsible college student is expected to behave. Proper college decorum helps the BMCC college community maintain a safe and scholarly environment conducive to academic success and college life. In addition, classroom protocol requires that students respect themselves, fellow students, professors, and staff by following simple rules, such as:

- You should come to class on time.
- When problems occur between members of the BMCC community, seek the proper venue for resolving the conflict.
- If you have been unavoidably detained and are arriving late for class, try to enter the classroom as quietly as possible in order not to disturb the class in session.
- While in class, you must turn off cell-phones, beepers, audio players, etc.
- Keep noise levels down throughout the building where instruction is going on.

General Education

No matter what your major is, BMCC believes in providing all its students with a foundation of specific knowledge and competencies necessary for life-long learning by fostering personal development, intellectual curiosity, and critical thinking that will enhance informed and effective participation in society. You will be provided with ample opportunities to develop and reinforce specific knowledge and competencies upon completion of the general education requirements in your program as well as in your major courses.

The information provided below outlines the General Education Goals at BMCC and gives examples of how you may fulfill them regardless of your selected major.

Communication Skills: You will write, read, listen and speak effectively. Communication skills are as vital in the pursuit of higher education as they are in succeeding in the labor force. As a student, having effective communication skills will be crucial in report writing and in successfully articulating points in presentations. In the workforce, employers expect you to be able to get your message across in oral and written form. If you are planning to pursue a baccalaureate degree, you will be required to read written texts, listen to lectures, write reports, and make presentations. You will acquire these skills by taking courses such as English and Speech, enrolling in writing intensive courses, and through a variety of workshops offered by the college. These skills will be reinforced in other courses through content and assignments.

Quantitative Skills: Students will use quantitative skills and the concepts and methods of mathematics to solve problems across disciplines.

Quantitative reasoning will teach you how to think logically and solve difficult problems—in the classroom as well as in life outside of school. If you want to continue your education, these skills can help prepare you for upper-level courses where you need to use logical thinking and problem solving skills. In addition, almost every career at one time or another will require quantitative skills to prepare a budget, purchase equipment, and/or interpret quantitative data. You will be able to acquire these skills by enrolling in courses such as mathematics, science, etc. These skills will also be reinforced through other major courses and college activities.

Values: Students will make informed choices based on an understanding of personal values, human diversity, multicultural awareness and social responsibility.

Your values and the choices you make define who you are in many ways. As a student, you will learn to appreciate diversity, work collaboratively, and reflect on ethical issues. You will be able to acquire these skills through courses and learning experiences offered by every academic department at BMCC. These skills will also be reinforced through extracurricular activities and other college experiences.

Social & Behavioral Sciences: Students will understand and apply the concepts and methods of the social sciences.

Social and behavioral sciences will enable you to analyze the world in which you live, understand human behavior, develop sensitivity to various cultures and an appreciation of how societies change. The concepts, methods and theories learned in this area of study can be applied to your every day work and personal life. The Social Science and Human Services Department and The Center for Ethnic Studies offer a wide range of courses and opportunities, including study abroad programs, to achieve this goal. Such knowledge and skills will be reinforced through other academic courses and college experiences and will prepare you for careers as varied as education, business and law.

Scientific Reasoning: Students will understand and apply concepts and methods of natural sciences.

You will gain an understanding of the natural sciences and learn the process to create and test a hypothesis. You will gain these skills primarily in science courses.

Arts & Humanities: Students will develop knowledge and understanding of languages, arts and cultures.

In any society, culture and the arts help people understand who they are while giving meaning to the world around them. In a city such as New York, with its diverse population and rich cultural heritage, the ability to interpret the world through arts and languages is very important. At BMCC, you will have many opportunities to build these skills by taking classes in art and music, language, theatre or literature. These skills may also be enforced through participation in school exhibits, plays, and attendance of events that showcase the arts and humanities.

Information & Technology Literacy: Students will collect, evaluate, and interpret information, and effectively use information technologies.

Information technology, the ability to find, understand and use information, is one of the foundational skills you will use throughout your entire academic career. Today, most information is found through one or more information technologies so you must learn to use them. The workplace will also put your information and technology skills to the test. You will be able to acquire these skills through courses and learning experiences offered by every academic department at BMCC. In addition, workshops, tutors, and the latest technology found in the Library, room \$400, and the Learning Resource Center (LRC), room \$500, will help you achieve this goal.

Transfer Information

When should you begin thinking about and preparing for transfer to another college? The moment you enroll at BMCC! Early preparation and planning lead to more desirable results. Here are some of the benefits to early transfer preparation:

- You will be able to investigate different schools and find exactly the one that fits you both academically and socially.
- You will be able to research and apply for available scholarships.
- You will feel more in control of the transfer process.
- You can speak with admissions and transfer counselors from the different schools you are looking to transfer to.

Now that you know the benefits, here are the transfer steps:

- Research the major of your choice as soon as possible.
- Stop by the Academic Advisement & Transfer Center (room S763) to see which 4-year college(s) offers your major.
- Check to see if BMCC has any articulation agreements in that major, or with the college you are interested in (An articulation agreement formally

partners an associate degree program with a baccalaureate degree program. The agreement maximizes the number of credits the student transfers to the senior college and allows for a seamless transfer).

- Attend a BMCC Transfer Fair or "Individual College Visit" to meet with a college representative for details about your intended program and general college information.
- Make sure all BMCC program and college requirements are or will be completed.
- Have the college application and essay, if required, completed BEFORE the deadline.
- Request that an official BMCC transcript be sent to the college(s) of your choice from the Registrar's Office, room S310.

Degree Completion and Transfer Benefit

Whether you wish to transfer to a CUNY senior college or a private or public institution, completing your associate degree at BMCC will go a long way to assuring your future academic success. Here are five other top reasons to consider:

- 5. You have something to walk away with!
 You will have more than just a high school diploma or a GED.
- 4. You have an "insurance policy" on a completed body of work! Schools are more likely to take all of your credits.
- 3. You save an awful lot of money by completing the first leg of your education here.
- 2. You become a more desirable candidate to other colleges and employers because you complete your degree!
- 1. Because when you "Start Here," and complete your 60 (-62) degree credits, you can "Go Anywhere."

Articulation Agreements and How They Work

In order to further support the smooth transition from a two-year to a four-year college, the Office of Academic Affairs works diligently to foster articulation agreements with senior institutions. Although these agreements do *not* guarantee admission to a particular school, they do guarantee that all degree courses will be accepted if the guidelines are strictly followed. For a complete list of BMCC's current articulation agreements listed by majors, please visit our website at:

www.bmcc.cuny.edu/transfercntr/transferinfo/agreements.html

Sister College Recruitment

BMCC has developed strong relationships with Wellesley, Mt. Holyoke and Smith Colleges, three of the five prestigious sister colleges located in New England. These colleges visit our campus annually to recruit from our large group of academically successful female students who are 24 years and older. Some of these programs offer special housing and scholarship awards for those who qualify.

The Community College Transfer Opportunity Program (CCTOP)

CCTOP makes it easier for you transfer from any of the participating community colleges to the New York University - Steinhardt School of Education by offering transfer agreements that allow you to maximize the number of credits you transfer, scholarships to help you meet the cost of tuition, and an advisor to answer all of your questions and help you make a successful transition to NYU.

Cornell University Transfer Initiative

Cornell University sponsors a Community College Transfer Initiative program that provides prospective transfer students with information, support, and guidance as they explore the transfer admission and financial aid process. BMCC is a partner in this initiative. For information, please visit either the Scholarship Office, located in room \$343 or the Academic Advisement & Transfer Center, located in room \$763.

CUNY TIPPS

Don't you wish there was some way to tell whether or not your courses will transfer to CUNY senior colleges, such as Baruch, City or Hunter?

Well there is! The CUNY TIPPS website will allow you to find out whether or not the CUNY senior college you wish to transfer to will accept your credits. There is also a listing of the many articulation agreements within CUNY itself. For more information, please visit the CUNY TIPPS website at www.tipps.cuny.edu.

Transfer Application Process

Now that you have decided which school(s) you want to apply to, where do you go from here? Once you have researched your choice school(s) and determined that you meet the minimum requirements, get an application! All you have to do after that is fill out the application and request your official transcripts.

The CUNY application can be accessed online at www.cuny.edu. Many, if not most, colleges prefer that you fill out their applications online; however you can request the applications from the individual colleges directly.

Finally, if you have any questions or need help completing your applications, the Academic Advisement & Transfer Center is here to help you any way they can. Just stop in room S763 and speak with one of their advisors.

DegreeWorks

BMCC is committed to continuously improving its academic quality while providing you with the resources to excel. DegreeWorks is an online student degree audit and advising system tool that has revolutionized the academic experience. DegreeWorks will allow you to see all of your course requirements for your degree in an online, user-friendly format. It will also

show you how the courses you have already taken will fit into another degree, should you decide to change your major. To access your degree audit, log on to the CUNY Portal at www.cuny.edu.

Academic Development Days

Academic Development Days are held each semester before the start of early advisement. You are invited to meet with an advisor to review your current coursework, make an academic plan, and get a clear understanding of academic issues relating to BMCC.

Out-in-Two Scholarship

The BMCC Out-in-Two Scholarship is an academic program designed to help you graduate within two consecutive years. You are eligible for the program as soon as you have completed your first semester if you meet the eligibility criteria outlined here. If you are a first time college freshman, who has completed your first semester at BMCC with 12 real credits and a minimum GPA of 3.0 you are eligible to apply for the Out-in-Two Scholarship. Students enrolled in Nursing (NUR), Respiratory Therapy (RTT), Health Information Technology (HIT), Paramedic (EMT) and Engineering Science (ESC) are not eligible. Students in the program who meet all the criteria and are selected will receive a scholarship award in their last three consecutive semesters. For more information, please contact Mary Quezada at 212 220-8000 ext: 7423.

E-Advisement

E-advisement is a service offered to all students (BMCC & non-BMCC), who have questions concerning academics at BMCC. All inquiries are answered via the Internet within 48 hours (during regular advisement periods). Please go to www.bmcc.cuny.edu/transfercntr/e-advising.html to utilize this service.

E-Learning / Distance-Learning Advisement

In concert with BMCC's missions to provide quality education to all its students, e-learning students are provided with an advisor to assist them while taking their courses online. You are provided with all the same services as traditional students, but advising is conducted via the Internet. Prior to the start of class, you will be contacted via e-mail to ensure you understand the requirements of e-learning courses. Your advisor will ensure that you know how to log-on to Blackboard, assist you if you need help, and will guide you in activating your required BMCC e-mail account.

Re-Admit Advisement

BMCC recognizes that students who have taken a brief or even extended break from college life, often require more assistance to ensure they attain their academic goals. These students will be assigned to a specific advisor from the Academic Advisement & Transfer Center to assist in their smooth transition back into higher education. The advisor will work closely with the Counseling Center and other students services, to make sure these students have access to all the resources they may need.

Academic Audit

During the semester before your last, you will be invited to meet with an advisor to make sure you are on-track to graduate the next semester. At this time, you will be made aware of the need for completing any remaining degree requirements (including courses and remedial requirements).

Nontraditional Career Academic Services

More and more students are discovering that they have the abilities and interests to excel in careers that have been traditionally been considered nontraditional. **Nontraditional careers defy conventional gender-based roles.** Below you will find the listing of majors that are considered nontraditional by gender:

Below you will find the listing of majors that are considered nontraditional by gender:

If you are enrolled in any of above mentioned programs, you will be provided with personalized academic advisement. This advisement includes, but is not limited to, semester advisement, course and curriculum planning, transfer advisement, and career mentorship. Special programs, such as transfer fairs to senior colleges offering nontraditional majors, round-table and panel discussions from leaders in the career fields, site visits, and open houses are available. In addition, you will receive support from your peers through the NT Career Society (one of the many student government sponsored clubs).

Student Clubs

How do I find out about student clubs?

The Offices of Student Activities (S206c) oversees the clubs and will be happy to help you. Student Activities works in collaboration with the Student Government Association (SGA) to monitor clubs and assist students in forming new clubs. The SGA charters and funds all student clubs. Club leaders must maintain certain grade point averages. Visit our website at www.bmcc.cuny.edu/clubs for information about leadership requirements, as well as how to start a club.

Amplification

Use of bullhorns, public address, or any unauthorized amplification equipment is prohibited.

Attendance and Lateness

Absences

The maximum number of absence hours is limited to one more class hour than the contact hours as indicated in the BMCC college catalog. For example, you may be enrolled in a four hour class that meets four times a week. You are allowed five hours of absence, not five days. In the case of excessive absence, the instructor has the option to lower the grade or assign an F or WU grade.

Class Attendance

If you do not attend class at least once in the first three weeks of the course, the Office of the Registrar is required to assign a grade of *WN.

Lateness

Classes begin promptly at the times indicated in the Schedule of Classes. Arrival in classes after the scheduled starting time constitutes lateness. Latecomers may, at the discretion of the instructor, incur an official absence.

Bicycles

Bicycles are not permitted inside college buildings at any time. Bicycle racks are available at the Harrison Street and North Moore Street entrances of the college. The racks are provided for your convenience and use on a daily basis; however, the college cannot accept responsibility or liability for the security of the bicycle. Bicycles may not be attached to any other fixture or structure of the college or interfere with pedestrian traffic. The college reserves the right to clip the locks of and dispose of any bicycles left overnight or attached to unauthorized fixtures.

Cell Phones and Radios

The use of cell phones is prohibited in classrooms, labs, the library, all theatres, and any other areas where instruction or an organized function is taking place. In addition, students are prohibited from playing radios on the college premises.

Children on Campus

The college has an obligation to its students, faculty, staff, and visitors to conduct its operations and maintain its facilities in a manner consistent with its mission as an institution of higher education. For this reason, young children who are not registered in the child care center should not be brought to campus, and, of course, may not attend classes with their parent or guardian.

There may be occasions when brief visits by children of students may be necessary. Children may visit college offices and facilities, other than classrooms, for limited periods of time when their parent or guardian is conducting routine business at the college. Regular repeated visits by children are not permitted.

In no case, are children permitted in labs, shops, construction/repair sites, or other areas where potential hazards exist. Children brought on campus must be directly supervised at all times by their parent or guardian.

Drugs and Alcohol

BMCC affirms its continuing commitment to drug, tobacco, and alcohol education on campus. It is committed to the development of educational and support programs directed toward eliminating the use and abuse of drugs, tobacco, and alcohol, whether legal or illegal.

The inappropriate use of alcohol and other drugs threatens the health and safety of students and the general public. Alcohol and drug use also adversely impairs performance. BMCC is committed to promoting health, safety, and a positive learning and working environment by preventing alcohol and other drug-related problems among the members of the college community.

The unlawful possession, use, or distribution of alcohol or other drugs by anyone, either on college property or at college-sponsored activities, is prohibited. Any person who is determined to have violated this policy will be subject to intervention by college officials. This policy and its requirements are consistent with the college's desire to promote health and safety and are in accordance with the requirements of the Drug-Free Workplace Act of 1988 and the Drug-Free School and Communities Act Amendments of 1989.

Furthermore, BMCC is a no-smoking campus. Smoking is prohibited in all areas of campus, including classrooms, hallways, offices, stairways and dining facilities.

Elevators

Elevators may not be used by students. This rule is waived only for students who have chronic or acute physical disabilities or who are non-ambulatory. Students should utilize the escalators and stairways.

Food

Food should not be eaten in classrooms and hallways. Food should be consumed in the cafeteria on the second floor. In addition to the cafeteria, students may obtain snacks from vending machines, which are also on the second floor. Students should bus their own trays and help to keep the cafeteria and snack bar areas clean.

Identification

Every BMCC student must wear a validated identification (ID) card at all times. Students need their ID card to enter the college, to enter the library, to borrow library books, or to collect student paychecks from the college. Students are expected to present their ID card to any college official (security officer, administrator, faculty and staff member, etc.) who requests such identification. For additional information on ID cards, contact the Office of Public Safety.

Literature

Posting of flyers, handouts, or other types of literature without authorization is prohibited. All literature posted in the college should be approved by Office of Student Activities.

Loitering

Loitering is prohibited at BMCC. Persons on campus without permission or proper ID may be subject to warning, suspension, expulsion, or arrest.

Pets

Animals or pets of any type are not permitted on the BMCC Campus. The presence of animals or pets violates the Public Health Law and College Policy. Seeing eye dogs are exempt from this policy.

Plagiarism

Plagiarism is the presentation of someone else's ideas, words, or artistic/scientific/technical work as one's own creation. A student who copies or paraphrases published or on-line material, or another person's research, without properly identifying the source(s) is committing plagiarism.

Plagiarism violates the ethical and academic standards of our college. Students will be held responsible for such violations, even when unintentional. To avoid unintended plagiarism, students should consult with their instructors about when and how to document their sources. The library also has both print and digital guides designed to help students cite sources correctly.

Plagiarism carries a range of penalties commensurate with severity of the infraction. The instructor may, for example, require the work to be redone, reduce the course grade, fail the student in the course, or refer the case to the Faculty-Student Disciplinary Committee. Cases referred to that committee could result in suspension or expulsion from the college.

Solicitation

Soliciting or fund raising of any kind without proper authorization is not permitted.

Computer User Responsibilities

Note: City University of New York Computer User Responsibilities is a statement originally prepared by the University's Computer Policy Committee. It underwent review by the University Faculty Senate and the CUNY Office of the Vice Chancellor for Legal Affairs.

Policy on Acceptable Use of Computer Resources: Introduction

CUNY's computer resources are dedicated to the support of the university's mission of education, research and public service. In furtherance of this mission, CUNY respects, upholds and endeavors to safeguard the principles of academic freedom, freedom of expression and freedom of inquiry.

CUNY recognizes that there is a concern among the university community that because information created, used, transmitted or stored in electronic form is by its nature susceptible to disclosure, invasion, loss, and similar risks, electronic communications and transactions will be particularly vulnerable to infringements of academic freedom. CUNY's commitment to the principles of academic freedom and freedom of expression includes electronic information. Therefore, whenever possible, CUNY will resolve doubts about the need to access CUNY computer resources in favor of a user's privacy interest.

However, the use of CUNY computer resources, including for electronic transactions and communications, like the use of other university-provided resources and activities, is subject to the requirements of legal and ethical behavior. This policy is intended to support the free exchange of ideas among members of the CUNY community and between the CUNY community and other communities, while recognizing the responsibilities and limitations associated with such exchange.

Applicability

This policy applies to all users of CUNY computer resources, whether affiliated with CUNY or not, and whether accessing those resources on a CUNY campus or remotely.

This policy supersedes the CUNY policy titled "CUNY Computer User Responsibilities" and any college policies that are inconsistent with this policy.

Definitions

"CUNY Computer resources" refers to all computer and information technology hardware, software, data, access and other resources owned, operated, or contracted by CUNY. This includes, but is not limited to, personal computers, handheld devices, workstations, mainframes, minicomputers, servers, network facilities, databases, memory, and associated peripherals and software, and the applications they support, such as e-mail and access to the internet.

"E-mail" includes point-to-point messages, postings to newsgroups and listservs, and other electronic messages involving computers and computer networks.

Rules for Use of CUNY Computer Resources

- 1. Authorization. Users may not access a CUNY computer resource without authorization or use it for purposes beyond the scope of authorization. This includes attempting to circumvent CUNY computer resource system protection facilities by hacking, cracking or similar activities, accessing or using another person's computer account, and allowing another person to access or use the user's account. This provision shall not prevent a user from authorizing a colleague or clerical assistant to access information under the user's account on the user's behalf while away from a CUNY campus or because of a disability. CUNY computer resources may not be used to gain unauthorized access to another computer system within or outside of CUNY. Users are responsible for all actions performed from their computer account that they permitted or failed to prevent by taking ordinary security precautions.
- **2. Purpose.** Use of CUNY computer resources is limited to activities relating to the performance by CUNY employees of their duties and responsibilities. For example,

use of CUNY computer resources for private commercial or not-for-profit business purposes, for private advertising of products or services, or for any activity meant solely to foster personal gain, is prohibited. Similarly, use of CUNY computer resources for partisan political activity is also prohibited.

Except with respect to CUNY employees other than faculty, where a supervisor has prohibited it in writing, incidental personal use of computer resources is permitted so long as such use does not interfere with CUNY operations, does not compromise the functioning of CUNY computer resources, does not interfere with the user's employment or other obligations to CUNY, and is otherwise in compliance with this policy.

3. Compliance with Law. CUNY computer resources may not be used for any purpose or in any manner that violates CUNY rules, regulations or policies, or federal, state or local law. Users who engage in electronic communications with persons in other states or countries or on other systems or networks may also be subject to the laws of those other states and countries, and the rules and policies of those other systems and networks. Users are responsible for ascertaining, understanding, and complying with the laws, rules, policies, contracts, and licenses applicable to their particular use.

Examples of applicable federal and state laws include the laws of libel, obscenity and child pornography, as well as the following:

Family Educational Rights and Privacy Act
Electronic Communications Privacy Act
Computer Fraud and Abuse Act
New York State Freedom of Information Law
New York State Law with respect to the confidentiality of library records
Examples of applicable CUNY rules and policies include the following:
Sexual Harassment Policy
Policy on Maintenance of Public Order
Web Site Privacy Policy
Gramm-Leach-Bliley Information Security Program
University Policy on Academic Integrity
Information Security policies

4. Licenses and Intellectual Property. Users of CUNY computer resources may use only legally obtained, licensed data or software and must comply with applicable licenses or other contracts, as well as copyright, trademark and other intellectual property laws.

Much of what appears on the internet and/or is distributed via electronic communication is protected by copyright law, regardless of whether the copyright is expressly noted. Users of CUNY computer resources should generally assume that material is copyrighted unless they know otherwise, and not copy, download or distribute copyrighted material without permission unless the use does not exceed fair use as defined by the federal Copyright Act of 1976. Protected material may include, among other things, text, photographs, audio, video, graphic illustrations, and computer software.

- **5. False Identity and Harassment.** Users of CUNY computer resources may not employ a false identity, mask the identity of an account or computer, or use computer resources to engage in abuse of others, such as sending harassing, obscene, threatening, abusive, deceptive, or anonymous messages within or outside CUNY.
- **6. Confidentiality.** Users of CUNY computer resources may not invade the privacy of others by, among other things, viewing, copying, modifying or destroying data

or programs belonging to or containing personal or confidential information about others, without explicit permission to do so. CUNY employees must take precautions to protect the confidentiality of personal or confidential information encountered in the performance of their duties or otherwise.

- **7. Integrity of Computer Resources.** Users may not install, use or develop programs intended to infiltrate or damage a computer resource, or which could reasonably be expected to cause, directly or indirectly, excessive strain on any computing facility. This includes, but is not limited to, programs known as computer viruses, Trojan horses, and worms. Users should consult with the IT director at their college before installing any programs that they are not sure are safe.
- 8. Disruptive Activities. CUNY computer resources must not be used in a manner that could reasonably be expected to cause or does cause, directly or indirectly, unwarranted or unsolicited interference with the activity of other users. This provision explicitly prohibits chain letters, virus hoaxes or other intentional e-mail transmissions that disrupt normal e-mail service. Also prohibited are spamming, junk mail or other unsolicited mail that is not related to CUNY business and is sent without a reasonable expectation that the recipient would welcome receiving it, as well as the inclusion on e-mail lists of individuals who have not requested membership on the lists, other than the inclusion of members of the CUNY community on lists related to CUNY business. CUNY has the right to require users of CUNY computer resources to limit or refrain from other specific uses if, in the opinion of the IT director at the user's college, such use interferes with efficient operations of the system, subject to appeal to the President or, in the case of central office staff, to the Chancellor.
- **9. CUNY Names and Trademarks.** CUNY names, trademarks and logos belong to the university and are protected by law. Users of CUNY computer resources may not state or imply that they speak on behalf of CUNY or use a CUNY name, trademark or logo without authorization to do so. Affiliation with CUNY does not, by itself, imply authorization to speak on behalf of CUNY.
- 10. Security. CUNY employs various measures to protect the security of its computer resources and of users' accounts. However, CUNY cannot guarantee such security. Users are responsible for engaging in safe computing practices such as guarding and not sharing their passwords, changing passwords regularly, logging out of systems at the end of use, and protecting private information, as well as for following CUNY's Information Security policies and procedures. Users must report incidents of Information Security policy non-compliance or other security incidents to CUNY's Chief Information Officer and Chief Information Security Officer, and the IT director at the affected user's college.
- 11. Filtering. CUNY reserves the right to install spam, virus and spyware filters and similar devices if necessary in the judgment of CUNY's Office of Information Technology or a college IT director to protect the security and integrity of CUNY computer resources. Notwithstanding the foregoing, CUNY will not install filters that restrict access to e-mail, instant messaging, chat rooms or websites based solely on content.
- 12. Confidential Research Information. Principal investigators and others who use CUNY computer resources to store or transmit research information that is required by law or regulation to be held confidential or for which a promise of confidentiality has been given, are responsible for taking steps to protect confidential research information from unauthorized access or modification. In general, this means storing the information on a computer that provides strong access controls (passwords) and encrypting files, documents, and messages

for protection against inadvertent or unauthorized disclosure while in storage or in transit over data networks. Robust encryption is strongly recommended for information stored electronically on all computers, especially portable devices such as notebook computers, Personal Digital Assistants (PDAs), and portable data storage (e.g., memory sticks) that are vulnerable to theft or loss, as well as for information transmitted over public networks. Software and protocols used should be reviewed and approved by CUNY's Office of Information Technology.

13. CUNY Access to Computer Resources. CUNY does not routinely monitor, inspect, or disclose individual usage of its computer resources without the user's consent. In most instances, if the university needs information located in a CUNY computer resource, it will simply request it from the author or custodian. However, CUNY IT professionals and staff do regularly monitor general usage patterns as part of normal system operations and maintenance and might, in connection with these duties, observe the contents of web sites, e-mail or other electronic communications. Except as provided in this policy or by law, these individuals are not permitted to seek out contents or transactional information, or disclose or otherwise use what they have observed. Nevertheless, because of the inherent vulnerability of computer technology to unauthorized intrusions, users have no guarantee of privacy during any use of CUNY computer resources or in any data in them, whether or not a password or other entry identification or encryption is used. Users may expect that the privacy of their electronic communications and of any materials contained in computer storage in any CUNY electronic device dedicated to their use will not be intruded upon by CUNY except as outlined in this policy.

CUNY may specifically monitor or inspect the activity and accounts of individual users of CUNY computer resources, including individual login sessions, e-mail and other communications, without notice, in the following circumstances:

- a. when the user has voluntarily made them accessible to the public, as by posting to Usenet or a web page;
- b. when it is reasonably necessary to do so to protect the integrity, security, or functionality of CUNY or other computer resources, as determined by the college chief information officer or his or her designee, after consultation with CUNY's chief information officer or his or her designee;
- c. when it is reasonably necessary to diagnose and resolve technical problems involving system hardware, software, or communications, as determined by the college chief information officer or his or her designee, after consultation with CUNY's chief information officer or his or her designee;
- d. when it is reasonably necessary to protect CUNY from liability, or when failure to act might result in significant bodily harm, significant property loss or damage, or loss of significant evidence, as determined by the college president or a vice president designated by the president, after consultation with the Office of General Counsel and the Chair of the University Faculty Senate (if a CUNY faculty member's account or activity is involved) or Vice Chair if the Chair is unavailable;
- e. when there is a reasonable basis to believe that CUNY policy or federal, state or local law has been or is being violated, as determined by the college president or a vice president designated by the president, after consultation with the Office of General Counsel and the Chair of the University Faculty Senate (if a CUNY faculty member's account or activity is involved) or Vice Chair if the Chair is unavailable;

- f. when an account appears to be engaged in unusual or unusually excessive activity, as indicated by the monitoring of general activity and usage patterns, as determined by the college president or a vice president designated by the president and the college chief information officer or his or her designee, after consultation with CUNY's chief information officer or his or her designee, the Office of General Counsel, and the Chair of the University Faculty Senate (if a CUNY faculty member's account or activity is involved) or Vice Chair if the Chair is unavailable; or
- g. as otherwise required by law.

In those situations in which the Chair of the University Faculty Senate is to be consulted prior to monitoring or inspecting an account or activity, the following procedures shall apply: (i) the college president shall report the completion of the monitoring or inspection to the Chair and the CUNY employee affected, who shall also be told the reason for the monitoring or inspection, except where specifically forbidden by law; and (ii) if the monitoring or inspection of an account or activity requires physical entry into a faculty member's office, the faculty member shall be advised prior thereto and shall be permitted to be present to observe, except where specifically forbidden by law.

A CUNY employee may apply to the General Counsel for an exemption from some or all of the circumstances under which CUNY may inspect and monitor computer resource activity and accounts, pursuant to subparagraphs (a)-(f) above, with respect to a CUNY computer resource used solely for the collection, examination, analysis, transmission or storage of confidential research data. In considering such application, the General Counsel shall have the right to require the employee to affirm in writing that the computer resource will be used solely for the confidential research. Any application for exemption should be made prior to using the computer resource for the confidential research.

CUNY, in its discretion, may disclose the results of any general or individual monitoring or inspection to appropriate CUNY personnel or agents, or law enforcement or other agencies. The results may be used in college disciplinary proceedings, discovery proceedings in legal actions, or otherwise as is necessary to protect the interests of the University.

In addition, users should be aware that CUNY may be required to disclose to the public under the New York State Freedom of Information Law communications made by means of CUNY computer resources in conjunction with University business.

Any disclosures of activity of accounts of individual users to persons or entities outside of CUNY, whether discretionary or required by law, shall be approved by the General Counsel and shall be conducted in accordance with any applicable law. Except where specifically forbidden by law, CUNY employees subject to such disclosures shall be informed promptly after the disclosure of the actions taken and the reasons for them.

The Office of General Counsel shall issue an annual statement of the instances of account monitoring or inspection that fall within categories (d) through (g) above. The statement shall indicate the number of such instances and the cause and result of each. No personally identifiable data shall be included in this statement.

See CUNY's Web Site Privacy Policy for additional information regarding data collected by CUNY from visitors to the CUNY website at www.cuny.edu.

14. Enforcement. Violation of this policy may result in suspension or termination of an individual's right of access to CUNY computer resources, disciplinary action by appropriate CUNY authorities, referral to law enforcement authorities for criminal

prosecution, or other legal action, including action to recover civil damages and penalties.

Violations will normally be handled through the university disciplinary procedures applicable to the relevant user. For example, alleged violations by students will normally be investigated, and any penalties or other discipline will normally be imposed, by the Office of Student Affairs.

CUNY has the right to temporarily suspend computer use privileges and to remove from CUNY computer resources material it believes violates this policy, pending the outcome of an investigation of misuse or finding of violation. This power may be exercised only by the President of each college or the Chancellor.

- 15. Additional Rules. Additional rules, policies, guidelines and/or restrictions may be in effect for specific computers, systems, or networks, or at specific computer facilities at the discretion of the directors of those facilities. Any such rules which potentially limit the privacy or confidentiality of electronic communications or information contained in or delivered by or over CUNY computer resources will be subject to the substantive and procedural safeguards provided by this policy.
- 16. Disclaimer. CUNY shall not be responsible for any damages, costs or other liabilities of any nature whatsoever with regard to the use of CUNY computer resources. This includes, but is not limited to, damages caused by unauthorized access to CUNY computer resources, data loss, or other damages resulting from delays, non-deliveries, or service interruptions, whether or not resulting from circumstances under the CUNY's control.

Users receive and use information obtained through CUNY computer resources at their own risk. CUNY makes no warranties (expressed or implied) with respect to the use of CUNY computer resources. CUNY accepts no responsibility for the content of web pages or graphics that are linked from CUNY web pages, for any advice or information received by a user through use of CUNY computer resources, or for any costs or charges incurred by a user as a result of seeking or accepting such advice or information.

CUNY reserves the right to change this policy and other related policies at any time. CUNY reserves any rights and remedies that it may have under any applicable law, rule or regulation. Nothing contained in this policy will in any way act as a waiver of such rights and remedies.

Henderson Rules

The tradition of the University as a sanctuary of academic freedom and center of informed discussion is an honored one, to be guarded vigilantly. The basic significance of that sanctuary lies in the protection of intellectual freedoms: the rights of professors to teach, of scholars to engage in the advancement of knowledge, of students to learn and to express their views, free from external pressures or interference. These freedoms can flourish only in an atmosphere of mutual respect, civility, and trust among teachers and students, only when members of the University community are willing to accept self-restraint and reciprocity as the condition upon which they share in its intellectual autonomy.

Academic freedom and the sanctuary of the University campus extend to all who share these aims and responsibilities. They cannot be invoked by those who would subordinate intellectual freedom to political ends, or who violate the norms of conduct established to protect that freedom. Against such offenders the University has the right, and indeed the obligation, to defend itself. We accordingly announce the following rules and regulations to be in effect at each of our colleges which are to be administered in accordance with the requirements of

due process as provided in the Bylaws of the Board of Higher Education.

With respect to enforcement of these rules and regulations we note that the Bylaws of the Board of Higher Education provide that:

- "THE PRESIDENT. The president, with respect to his/her education unit, shall:

- b. Be the advisor and executive agent of the Board of his/her respective College Committee and as such shall have the immediate supervision with full discretionary power in carrying into effect the Bylaws, resolutions, and policies of the Board, the lawful resolutions of any of its committees and the policies, programs and lawful resolutions of the several facilities;
- c. Exercise general superintendence over the concerns, officers, employees, and students of his/her educational unit."

Policies and Procedures Concerning Sexual Assault, Stalking and Domestic and Intimate Partner Violence Against Students

RESOLVED, That the CUNY Board of Trustees approves the Policies and Procedures Concerning Sexual Assault, Stalking and Domestic and Intimate Partner Violence against Students, effective July 1, 2010.

I. POLICY STATEMENT

The City University of New York seeks to create and maintain a safe environment in which all members of the University community—students, faculty and staff—can learn and work free from the fear of sexual assault and other forms of violence. The University's policies on Workplace Violence and Domestic Violence and the Workplace apply to all acts of violence that occur in the workplace or that may spill over into the workplace. The University's Sexual Harassment Policy prohibits many forms of unwelcome conduct, including but not limited to, physical conduct of a sexual nature. This policy is specifically directed towards sexual assault, domestic and intimate partner violence and stalking committed against students on and off-campus.

CUNY wants all victims of sexual assault, stalking and domestic and intimate partner violence to know that the University has professionals and law enforcement officers who are trained in the field to assist student victims in obtaining help, including immediate medical care, counseling and other essential services. If the alleged perpetrator is also a member of the CUNY community, the college will take prompt action to investigate, and, where appropriate, to discipline and sanction the alleged perpetrator. CUNY urges all victims to seek immediate help in accordance with the guidelines set forth in this policy with the assurance that all information received from a complaint will be handled as confidentially as possible.

In order to eliminate sexual assaults and other forms of violence perpetrated against students, and to create a safe college community, it is critical to provide an appropriate prevention education program and have trained professionals to provide vital supportive services.

Accordingly, CUNY is committed to the following goals:

- Providing clear and concise guidelines for students to follow in the event that they or someone they know have been the victim of a sexual assault, domestic/intimate partner violence, or stalking.
- Assisting victims of sexual assault or abuse in obtaining necessary medical care and counseling, whether on or offcampus.
- Providing the most informed and up-to-date education and information to its students about how to identify situations that involve sexual assault, domestic and intimate partner violence, or stalking, and ways to prevent these forms of violence.
- Educating and training all staff members, including counselors, public safety officers and student affairs staff and faculty, to assist victims of sexual assault, domestic/intimate partner violence, or stalking.
- Ensuring that disciplinary procedures are followed in the event that the alleged perpetrator is a CUNY student or employee.

II. PROCEDURES FOR REPORTING INCIDENTS OF SEXUAL ASSAULT AND OTHER FORMS OF VIOLENCE

Obtaining assistance after a student is sexually assaulted, stalked or is in an abusive relationship is extremely important and can involve different points of on-campus contact for students, faculty and staff, including the Public Safety Department, Women's/Men's Centers and Counseling Departments, and/or the Dean of Student Development/Student Affairs. Each provides different forms of assistance which together address many of the needs of survivors.

Contact Law Enforcement Personnel Immediately

CUNY urges any student who has been the victim of a sexual assault or other act of violence or abuse, or any student or employee who has witnessed a sexual assault or other act of violence against a student, to immediately report the incident to the college Public Safety Department if the attack occurred oncampus, or to call 911 or go to the local NYPD precinct if the incident took place off-campus. Each college shall be provided with a list of emergency contact numbers as part of its orientation and training programs.

Seek Immediate Medical Attention

It is critical that victims of a physical assault receive comprehensive medical attention as soon as possible. For a sexual assault in particular, immediate treatment and the preservation of evidence of the attack (i.e. retain the clothing worn during the attack and do not shower) is crucial to a criminal investigation. If a student believes that she/he may be the victim of date rape by being drugged, she/he should go directly to a hospital to receive a toxicology examination since such drugs only remain in a person's system for a short period of time. In all other circumstances, public safety and police personnel can assist the victim in obtaining medical care. Each college shall be provided with a list of local hospitals, some of which are designated as SAFE (Sexual Assault Forensic Examiner) hospitals that are specially equipped to handle sexual assaults and are trained to gather minute evidence from such assaults. Rape crisis advocates at emergency rooms are also trained to handle domestic violence. EMS will be directed to bring victims to a SAFE hospital at their request. Medical attention is critical not only to treat internal and external injuries and to combat the possibilities of sexually transmitted infections and/or pregnancy, but also to collect evidence that can be used against the alleged perpetrator. It is also vital to ongoing safety and recovery that victims receive emotional support and professional counseling as soon as possible after the attack.

Seek On-Campus Assistance

CUNY encourages student victims to contact the Dean of Student Affairs/Student Development to obtain assistance in accessing medical and counseling services, or to make any necessary changes to the student's academic program or residential housing situation. Public Safety can assist victims getting to and from campus safely, filing a police report and obtaining an order of protection against the alleged perpetrator. Victims can also file a complaint with the College against an alleged perpetrator who is a student or employee of the University with the Dean of Student Affairs/Student Development and the Public Safety Office.

Obtaining an On-Campus Advocate

Student victims of a sexual assault, stalking or domestic or intimate partner violence shall be provided with oncampus support in the form of an advocate from the Women's/Men's Center (if there is one on campus) or an appropriately trained counselor to assist them in handling the various aspects of their ordeal, such as:

- 1) explaining to victims their options of whether or not to report the incident to campus or law enforcement authorities;
- 2) providing guidance if they require medical attention;

- 3) providing guidance in obtaining crisis intervention and/or ongoing counseling services (or a referral to obtain the necessary services if such services are not available on campus): and
- 4) assisting victims throughout the College's disciplinary process if they choose to file a complaint against another student in connection with the incident.

Handling Sexual Assault, Stalking and Domestic and Intimate Partner Violence Complaints On-Campus

The Colleges shall act promptly in response to information that a student has been sexually assaulted, or has been the victim of domestic or intimate partner violence or stalking by another member of the CUNY community. Upon receipt of a complaint, the College shall undertake an appropriate investigation. If it appears that there is sufficient evidence to warrant disciplinary charges against a student or staff member, such charges shall be brought pursuant to the appropriate University procedures or collective bargaining agreement. If the alleged perpetrator is a student and the matter is brought before a hearing, the victim and alleged perpetrator are entitled to the same opportunities to have others present and to be informed of the outcome of the proceedings. The victim is entitled to a report of the results of the proceeding at her/his request. If a student is found guilty of committing a sexual assault or other act of violence against another CUNY student or employee after a disciplinary hearing, the penalties may include suspension, expulsion from residence halls, or permanent dismissal from CUNY.

In addition, if during the course of the investigation and/or disciplinary process the alleged perpetrator, or anyone on his/her behalf, seeks to contact the victim so as to harass, intimidate, threaten or coerce the victim in any way, the College reserves the right to bring additional disciplinary action against the actor. Such conduct by any member of the CUNY community will not be tolerated.

Confidentiality

The University recognizes that confidentiality is particularly important to victims of sex crimes, domestic and intimate partner violence and stalking. If the victim seeks counseling with a licensed professional and/or works with an advocate from the campus, those communications will be confidential. CUNY encourages victims in all circumstances to seek counseling in order to speak about her/his options and to begin the recovery period. While complete confidentiality cannot be guaranteed, every effort will be made to maintain confidentiality on a "need to know" basis. Generally, the wishes of a victim not to report a sexual assault or incident of domestic/intimate partner violence or stalking to the police will prevail, though the College reserves the right to notify the police when it believes that such reporting is necessary for the protection of the College community. Such notification, however, will generally be done without divulging the victim's identity and for the purpose of providing a campus-wide safety alert. In addition, the College must adhere to legal mandates such as Title IX, medical reporting laws. and the Campus Security Act. For example, CUNY is required to make an annual report documenting the occurrences of violent crimes on campus, including sexual assault. However, this report does not include any information identifying the individuals (including the victims) linked to these crimes.

III. IMPLEMENTATION OF THE POLICIES AND PROCEDURES CONCERNING SEXUAL ASSAULT AND OTHER FORMS OF VIOLENCE AGAINST STUDENTS

The President and Vice President for Student Affairs/Student Development of each college shall be responsible for implementing this policy in accordance with the most up-to-date information and resources pertaining to sexual assault, stalking and domestic/intimate partner violence education and prevention, and victim assistance. The following steps must be taken to implement this policy:

1. Publication: A copy of this policy shall be easily accessible on the CUNY website and on the website administered by each College. A summary shall also

be incorporated into every College student handbook. In addition, copies of the policy and procedures shall be made available in student centers, residence halls, student affairs/student development offices, women's/men's centers, counseling centers, health clinics and public safety departments, and shall be distributed to all new students during orientations.

- 2. Prevention/Risk Reduction Education: Each College shall develop materials and programs to educate its students, faculty and staff on the nature, dynamics, common circumstances and effects of sexual assault, domestic/intimate partner violence and stalking, and the means to reduce their occurrence and prevent them. Prevention education should provide up-to-date and relevant information, such as education pertaining to bystander intervention, the importance of peer networks and the significance of fostering a community of responsibility. Prevention education materials and programs shall be incorporated into campus orientation activities for all incoming undergraduate and graduate students (including transfers), and shall be made available to all student activity groups, clubs and athletic teams. In addition, all residence halls shall have a mandatory orientation on sexual assault, stalking and domestic/intimate partner violence prevention. Colleges are encouraged to assist in the organization of peer education groups and to provide resources to such groups so that the groups can provide training and outreach to other students throughout the academic year. Since the abuse of alcohol is frequently involved in occurrences of sexual assault and other forms of violence, it is important that the education program include education about the deleterious effects of alcohol abuse.
- **3. Professional Training:** Each College shall provide periodic training relating to the prevention and handling of sexual assaults, stalking and domestic/intimate partner violence for all relevant personnel, including public safety officers, counselors, student affairs staff and residence hall assistants by experts trained in the field. Education and training shall also be made available to any interested faculty and staff member. Each campus must have at least one qualified staff or faculty member serve as a designated liaison and trainer.
- **4. Oversight by CUNY Central Administration:** The University Vice Chancellor for Student Affairs shall monitor compliance with this policy at all of the campuses, shall review the policies and procedures on an annual basis, and shall make recommendations in the event that updates to prevention and education information are necessitated. In addition, the Office of the Vice Chancellor for Student Affairs shall provide educational materials that may be needed to ensure full implementation of this policy on every campus. Liaisons will be identified from each campus who will receive standardized training in order to fulfill their responsibilities on their campuses. The policies, procedures and outreach materials and programs will be subject to a periodic process of assessment in order to maintain efficacy.

EXPLANATION: A CUNY-wide Sexual Assault Task Force comprised of CUNY students, faculty members, counselors, administrative staff and attorneys was charged with the responsibility to formulate a policy to address the prevention of sexual assaults, stalking and domestic violence against its students, and to establish a uniform protocol for handling cases in which CUNY students have been the victims of sexual assaults or other acts of violence, on or off campus. New York State Education Law requires colleges to adopt such a policy.

The Policy creates a comprehensive plan for handling sexual assaults and other acts of violence on our campuses in the event that a student is victimized. It also requires each CUNY campus to educate students concerning ways to reduce the occurrence of sexual assaults, stalking and domestic violence.

Further, the Policy requires that peace officers, counselors, student affairs administrators, and other relevant CUNY staff members obtain periodic training

so as to provide the most effective education, outreach, and counseling to CUNY students. CUNY's Vice Chancellor for Student Affairs will monitor compliance with the Policy and Procedures at all of the campuses and will review its implementation on an annual basis.

The Campus Sex Crimes Prevention Act is a Federal Law that was enacted on October 28, 2000 and provides for the tracking of convicted, registered sex offenders who work, attend or volunteer at institutions of higher education. As of October 28, 2002, each state must ensure that all registered sex offenders provide information concerning each institution of higher education where they work, attend or volunteer.

Sexual Harassment

Borough of Manhattan Community College adheres to the Policy Against Sexual Harassment adopted by the Board of Trustees of The City University of New York (CUNY). It is the policy of The CUNY to promote a cooperative work and academic environment in which there exists mutual respect for all University students, faculty, and staff. Harassment of employees or students based upon sex is inconsistent with this objective and contrary to the University's non-discrimination policy. Sexual harassment is illegal under Federal, State, and City laws and will not be tolerated within the University.

What is Sexual Harassment?

Sexual harassment is defined as unwelcome sexual advances, requests for sexual favors, and other oral or written communications or physical conduct of a sexual nature when:

- submission to such conduct is made either explicitly or implicitly a term or condition of an individual's employment or academic standing;
- submission to or rejection of such conduct by an individual is used as a basis for employment or academic decisions affecting such individual; or
- such conduct has the purpose or effect of unreasonably interfering with an individual's work or academic performance or creating an intimidating, hostile, or abusive work or academic environment.

This policy applies to all BMCC faculty, staff, and students, to all BMCC sponsored programs on or off the campus, and to visitors, vendors, contractors, etc., engaged in an activity or program on the campus.

Where should you go for assistance?

All members of the BMCC Sexual Harassment Awareness and Intake Committee have been certified through extensive training to respond to inquiries and complaints of sexual harassment from any member of the college community. Student or employee complaints should be directed to any one of the committee members. All materials concerning Sexual Harassment are available in Room S750d and messages can be left there for other committee members. All committee members have an obligation to maintain confidentiality to the fullest extent possible.

Student Complaint Procedure of The City University of New York

EXPLANATION: Although the University and its Colleges have a variety of procedures for dealing with student related issues, those procedures generally have not covered student complaints about faculty conduct in the classroom or other formal academic settings. The University respects the academic freedom

of the faculty and will not interfere with it as it relates to the content or style of teaching activities. At the same time, however, the University recognizes its responsibility to establish procedures for addressing student complaints about faculty conduct that is not protected by academic freedom and not addressed in other procedures. The proposed procedures will accomplish this goal.

Procedures for handling student complaints about faculty conduct in academic settings:

- I. Introduction. The University and its Colleges have a variety of procedures for dealing with student-related issues, including grade appeals, academic integrity violations, student discipline, disclosure of student records, student elections, sexual harassment complaints, disability accommodations, and discrimination. One area not generally covered by other procedures concerns student complaints about faculty conduct in the classroom or other formal academic settings. The University respects the academic freedom of the faculty and will not interfere with it as it relates to the content or style of teaching activities. Indeed, academic freedom is and should be of paramount importance. At the same time the University recognizes its responsibility to provide students with a procedure for addressing complaints about faculty treatment of students that are not protected by academic freedom and are not covered by other procedures. Examples might include incompetent or inefficient service, neglect of duty, physical or mental incapacity and conduct unbecoming a member of the staff.
- II. Determination of Appropriate Procedure. If students have any question about the applicable procedure to follow for a particular complaint, they should consult with the chief student affairs officer. In particular, the chief student affairs officer should advise a student if some other procedure is applicable to the type of complaint the student has.
- III. Informal Resolution. Students are encouraged to attempt to resolve complaints informally with the faculty member or to seek the assistance of the department chairperson or campus ombudsman to facilitate informal resolution.
- IV. Formal Complaint. If the student does not pursue informal resolution, or if informal resolution is unsuccessful, the student may file a written complaint with the department chairperson or, if the chairperson is the subject of the complaint, with the academic dean or a senior faculty member designated by the college president. (This person will be referred to below as the Fact Finder.). Only students in a faculty member's class or present in another academic setting where the alleged conduct occurred may file complaints against that faculty member.
- A. The complaint shall be filed within 30 calendar days of the alleged conduct unless there is good cause shown for delay, including but not limited to delay caused by an attempt at informal resolution. The complaint shall be as specific as possible in describing the conduct complained of.
- B. The Fact Finder shall promptly send a copy to the faculty member about whom the complaint is made, along with a letter stating that the filing of the complaint does not imply that any wrongdoing has occurred and that a faculty member must not retaliate in any way against a student for having made a complaint. If either the student or the faculty member has reason to believe that the department chairperson may be biased or otherwise unable to deal with the complaint in a fair and objective manner, he or she may submit to the academic dean or the senior faculty member designated by the college president a written request stating the reasons for that belief; if the request appears to have merit, that person may, in his or her sole discretion, replace the department chairperson as the Fact Finder. The chairperson may also submit a written request for recusal for good cause to the academic dean or senior

faculty member designated by the college president to review such requests. If a recusal request is granted, a different department chairperson shall conduct the investigation, or, if no other chairperson is available, an administrator designated by the college president shall serve in the chairperson's stead. Further, the college president may re-assign investigations as necessary, including but not limited to situations in which a Fact Finder has not completed an investigation in a timely manner. In addition, during any time that no department chairperson is available to investigate a complaint, the college president may assign an administrator to investigate.

- C. The Fact Finder shall meet with the complaining student and faculty member, either separately or together, to discuss the complaint and to try to resolve it. The Fact Finder may seek the assistance of the campus ombudsman or other appropriate person to facilitate informal resolution.
- D. If resolution is not possible, and the Fact Finder concludes that the facts alleged by the student, taken as true and viewed in the light most favorable to the student, establish that the conduct complained of is clearly protected by academic freedom, he or she shall issue a written report dismissing the complaint and setting forth the reasons for dismissal and send a copy to the complaining student, the faculty member, the chief academic officer and the chief student affairs officer. Otherwise, the Fact Finder shall conduct an investigation. The Fact Finder shall separately interview the complaining student, the faculty member and other persons with relevant knowledge and information and shall also consult with the chief student affairs officer and, if appropriate, the college ombudsman. The Fact Finder shall not reveal the identity of the complaining student and the faculty member to others except to the extent necessary to conduct the investigation. If the Fact Finder believes it would be helpful, he or she may meet again with the student and faculty member after completing the investigation in an effort to resolve the matter. The complaining student and the faculty member shall have the right to have a representative (including a union representative, student government representative or attorney) present during the initial meeting, the interview and any post-investigation meeting.
- E. In cases where there is strong preliminary evidence that a student's complaint is meritorious and that the student may suffer immediate and irreparable harm, the Fact Finder may provide appropriate interim relief to the complaining student pending the completion of the investigation. The affected faculty member may appeal such interim relief to the chief academic officer.
- F. At the end of the investigation, the Fact Finder shall issue a written report setting forth his or her findings and recommendations, with particular focus on whether the conduct in question is protected by academic freedom, and send a copy to the complaining student, the faculty member, the chief academic officer and the chief student affairs officer. In ordinary cases, it is expected that the investigation and written report should be completed within 30 calendar days of the date the complaint was filed.
- V. Appeals Procedure. If either the student or the faculty member is not satisfied with the report of the Fact Finder, the student or faculty member may file a written appeal to the chief academic officer within 10 calendar days of receiving the report, which time period may be extended for good cause shown. The chief academic officer shall convene and serve as the chairperson of an Appeals Committee, which shall also include the chief student affairs officer, two faculty members elected annually by the faculty council or senate and one student elected annually by the student senate. The Appeals Committee shall

review the findings and recommendations of the report, with particular focus on whether the conduct in question is protected by academic freedom. The Appeals Committee shall not conduct a new factual investigation or overturn any factual findings contained in the report unless they are clearly erroneous. If the Appeals Committee decides to reverse the Fact Finder in a case where there has not been an investigation because the Fact Finder erroneously found that the alleged conduct was protected by academic freedom, it may remand to the Fact Finder for further proceedings. The committee shall issue a written decision within 20 calendar days of receiving the appeal. A copy of the decision shall be sent to the student, the faculty member, the department chairperson and the president.

- VI. Subsequent Action. Following the completion of these procedures, the appropriate college official shall decide the appropriate action, if any, to take. For example, the department chairperson may decide to place a report in the faculty member's personnel file or the president may bring disciplinary charges against the faculty member. Disciplinary charges may also be brought in extremely serious cases even though the college has not completed the entire investigative process described above; in that case, the bringing of disciplinary charges shall automatically suspend that process. Any action taken by a college, whether interim or final, must comply with the bylaws of the University and the collective bargaining agreement between the University and the Professional Staff Congress.
- VII. Campus Implementation. Each campus shall implement these procedures and shall distribute them widely to administrators, faculty members and students and post them on the college website.

Student Disciplinary Procedures from The City University of New York Bylaws

Section 15.3

Complaint Procedures:

- a. Any charge, accusation, or allegation which is to be presented against a student, and, which if proved, may subject a student to disciplinary action, must be submitted in writing in complete detail to the Office of the Dean of Students promptly by the individual, organization, or department making the charge.
- b. The chief student affairs officer of the college or his or her designee will conduct a preliminary investigation in order to determine whether disciplinary charges should be preferred. The chief student affairs officer or his or her designee will advise the student of the charge(s) against him or her, consult with other parties who may be involved or who have information regarding the incident, and review other relevant evidence. Following this preliminary investigation, which shall be concluded within thirty (30) calendar days of the filing of the complaint, the chief student affairs officer or designee shall take one of the following actions:
 - Dismiss the matter if there is no basis for the allegation(s) or the allegation(s) does not warrant disciplinary actions. The individuals involved shall be notified that the complaint has been dismissed;
 - Refer the matter to conciliation. If a matter is referred to conciliation, the accused student shall receive a copy of the notice required pursuant to section 15.3.e. of this by-law; or
 - 3. Prefer formal disciplinary charges.

Conciliation Conference:

- c. The conciliation conference shall be conducted by the counselor in the office of the dean of students or a qualified staff or faculty member designated by the chief student affairs officer. The following procedures shall be in effect at this conference:
 - 1. An effort will be made to resolve the matter by mutual agreement.
 - If an agreement is reached, the counselor shall report his/her recommendation to the chief student affairs officer for approval and, if approved, the complainant shall be notified.
 - 3. If no agreement is reached, or if the student fails to appear, the counselor shall refer the matter back to the chief student affairs officer who will prefer disciplinary charges.
 - 4. The counselor is precluded from testifying in a college hearing regarding information received during the conciliation conference.

Notice of Hearing and Charges:

- d. Notice of the charge(s) and of the time and place of the hearing shall be personally delivered or sent by the chief student affairs officer of the college to the student at the address appearing on the records of the college, by registered or certified mail, and by regular mail. The hearing shall be scheduled within a reasonable time following the filing of the charges or the conciliation conference. Notice of at least five business days shall be given to the student in advance of the hearing unless the student consents to an earlier hearing.
- e. The notice shall contain the following:
 - 1. A complete and itemized statement of the charge(s) being brought against the student including the rule, by-law, or regulation he/she is charged with violating, and the possible penalties for such violation.
 - 2. A statement that the student has the following rights:
 - i. to present his/her side of the story;
 - ii. to present witnesses and evidence on his/her behalf;
 - iii. to cross-examine witnesses presenting evidence against the student;
 - iv. to remain silent without assumption of guilt; and
 - v. to be represented by legal counsel or an advisor at the student's expense.
 - 3. A warning that anything the student says may be used against him/her at a non-college hearing.

Faculty-Student Disciplinary Committee Procedures:

- f. The following procedures shall apply at the hearing before the faculty-student disciplinary committee:
- 1. The chairperson shall preside at the hearing. The chairperson shall inform the student of the charges, the hearing procedures, and his or her rights.
- 2. After informing the student of the charges, the hearing procedures, and his or her rights, the chairperson shall ask the student charged to plead guilty or not guilty. If the student pleads guilty, the student shall be given an opportunity to explain his/her actions before the committee. If the student pleads not guilty, the college shall present its case. At the conclusion of the college's case, the student may move to dismiss the charges. If the motion is denied by the committee, the student shall be given an opportunity to present his or her defense.

- 3. Prior to accepting testimony at the hearing, the chairperson shall rule on any motions questioning the impartiality of any committee member or the adequacy of the notice of the charge(s). Subsequent thereto, the chairperson may only rule on the sufficiency of the evidence and may exclude irrelevant, immaterial, or unduly repetitive evidence. However, if either party wishes to question the impartiality of a committee member on the basis of evidence, which was not previously available at the inception of the hearing, the chairperson may rule on such a motion. The chairperson shall exclude all persons who are to appear as witnesses, except the accused student.
- 4. The college shall make a record of each fact-finding hearing by some means such as a stenographic transcript, a tape recording, or the equivalent. A disciplined student is entitled upon request to a copy of such a transcript, tape, or equivalent without cost.
- 5. The student is entitled to a closed hearing but has the right to request an open public hearing. However, the chairperson has the right to hold a closed hearing when an open public hearing would adversely affect and be disruptive of the committee's normal operations.
- The college bears the burden of proving the charge(s) by a preponderance of the evidence.
- 7. The role of the faculty-student disciplinary committee is to listen to the testimony, ask questions of the witnesses, review the testimony and evidence presented at the hearing and the papers filed by the parties, and render a determination as to guilt or innocence. In the event the student is found guilty, the committee shall then determine the penalty to be imposed.
- 8. At the end of the fact-finding phase of the hearing, the student may introduce additional records, such as character references. The college may introduce a copy of the student's previous disciplinary record, where applicable, provided the student was shown a copy of the record prior to the commencement of the hearing. The disciplinary record shall be submitted to the committee in a sealed envelope and shall not be opened until after the committee has made its findings of fact. In the event the student has been determined to be guilty of the charge or charges, the records and documents introduced by the student and the college shall be opened and used by the committee for dispositional purposes, i.e., to determine an appropriate penalty if the charges are sustained.
- 9. The committee shall deliberate in closed session. The committee's decision shall be based solely on the testimony and evidence presented at the hearing and the papers filed by the parties.
- 10. The student shall be sent a copy of the faculty-student disciplinary committee's decision within five days of the conclusion of the hearing. The decision shall be final subject to the student's right of appeal.
- 11. Where a student is represented by legal counsel, the president of the college may request that a lawyer from the general counsel's office appear at the hearing to present the college's case.

Section 15.4. Appeals.

An appeal from the decision of the faculty-student disciplinary committee may be made to the president who may confirm or decrease the penalty but not increase it. His/her decision shall be final except in the case of dismissals or suspension for more than one term. An appeal from a decision of dismissal or suspension for more than one term may be made to the appropriate committee of the board.

Any appeal under this section shall be made in writing within fifteen days after the delivery of the decision appealed from. This requirement may be waived in a particular case for good cause by the president or board committees as the case may be. If the president is a party to the dispute, his/her functions with respect to an appeal shall be discharged by an official of the university to be appointed by the chancellor.

Section 15.5. Committee Structure.

- a. Each faculty-student disciplinary committee shall consist of two faculty members and two student members and a chairperson. A quorum shall consist of the chair and any two members. Hearings shall be scheduled at a convenient time and efforts shall be made to insure full student and faculty representation.
- b. The president shall select in consultation with the head of the appropriate campus governance body or where the president is the head of the governance body, its executive committee, three (3) members of the instructional staff of that college to receive training and to serve in rotation as chair of the disciplinary committee. If none of the chairpersons appointed from the campus can serve, the president, at his/her discretion, may request that a chairperson be selected by lottery from the entire group of chairpersons appointed by other colleges. The chairperson shall preside at all meetings of the faculty-student disciplinary meetings and decide and make all rulings for the committee. He/she shall not be a voting member of the committee but shall vote in the event of a tie.
- c. The faculty members shall be selected by lot from a panel of six elected annually by the appropriate faculty body from among the persons having faculty rank or faculty status. The student members shall be selected by lot from a panel of six elected annually in an election in which all students registered at the college shall be eligible to vote. In the event that the student or faculty panel or both are not elected, or if more panel members are needed, the president shall have the duty to select the panel or panels, which have not been elected. No individuals on the panel shall serve on the panel for more than two consecutive years.
- d. In the event that the chairperson cannot continue, the president shall appoint another chairperson. In the event that a student or faculty seat becomes vacant and it is necessary to fill the seat to continue the hearing, the seat shall be filled from the faculty or student panel by lottery.
- e. Persons who are to be participants in the hearings as witnesses or have been involved in preferring the charges or who may participate in the appeals procedures or any other person having a direct interest in the outcome of the hearing shall be disqualified from serving on the committee.

Section 15.6. Suspension or Dismissal.

The board reserves full power to dismiss or suspend a student, or suspend a student organization for conduct, which impedes, obstructs, or interferes with the orderly and continuous administration and operation of any college, school, or unit of the university in the use of its facilities or in the achievement of its purposes as an educational institution.

The chancellor or chancellor's designee, a president, or any dean may in emergency or extraordinary circumstances, temporarily suspend a student, or temporarily suspend the privileges of a student organization or group for cause, pending an early hearing as provided in Bylaw Section 15.3. to take place within not more than seven (7) school days. Prior to the commencement of a temporary

suspension of a student, the college shall give such student oral or written notice of the charges against him/her and, if he/she denies them, the college shall forthwith give such student an informal oral explanation of the evidence supporting the charges and the student may present informally his/her explanation or theory of the matter. When a student's presence poses a continuing danger to person or property or an ongoing threat of disrupting the academic process, notice and opportunity for denial and explanation may follow suspension, but shall be given as soon as feasible thereafter.

Student Activity Fee

For full view of the Article XVI, go to www.cuny.edu

The student activity fee is the total of the fee for student government and other student activities. Student activity fees, including student government fees collected by a college of the university shall be deposited in a college central depository and, except where earmarked by the board, allocated by a college association budget committee subject to review by the college association as required in these bylaws.

Student Records Policy

Annually, Colleges inform students of the Family Educational Rights and Privacy Act of 1974, (FERPA) as amended. The Office of the Registrar will disclose FERPA information by publishing a notice in the College Catalog, Registrar Website and in other appropriate locations. This annual notice shall prescribe the procedures whereby a student may make a formal request for non-disclosure of directory information, exercise the right to inspect and review education records, request an amendment of education records and obtain a copy of the College's education records policy. The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. See Section "6" below on your right to prevent the disclosure of directory information. The FERPA rights of students are:

- 1. The right to inspect and review your educational records.
 - Students should submit to the registrar, dean, head of the academic department, or other appropriate official, written requests that identify the record(s) they wish to inspect. If the records are not maintained by the college official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed. All requests shall be granted or denied in writing within 45 days of receipt. If the request is granted, you will be notified of the time and place where the records may be inspected.
