

What is CampusLink?

CampusLink is OSU's student organization/leadership development/volunteer service database. This site provides free access for any OSU student or community member to view what events, activities, and organizations are at OK-State. As the premier activities site at Oklahoma State, CampusLink provides a great, simple and free location for creating & advertising events in addition to other social media sites. CampusLink also allows you the opportunity to host elections, contact members, & much more. All student organizations at OSU are required to keep their information in CampusLink up to date as this is the only location for organization contact information. Be sure to check out the website <http://campuslink.okstate.edu/> for more information. If you have any questions on how to manage CampusLink contact Marie Basler 405-744-5488, marie.basler@okstate.edu or the Graduate Assistant for Campus Life, Brian Lackman at 405-744-5486.

New Organizations...

Once an organization has been officially approved by the Student Government Association it is time to join CampusLink. The first step is to contact the Campus Life office for the initial input of the newly appointed organization's information on the website. This will include the name of the organization, type of organization, purpose, date of elections, advisor and officer's names, addresses, email addresses & phone numbers. The next step includes an initial training of the CampusLink website offered by Campus Life. The training presents current members and officers the ability to take the knowledge and skills they learn back to the club/organization and educate others of the importance of CampusLink and how to use it. In the future, these members may need to

make updates and organizational changes through the interface or wish to use other services offered through CampusLink.
