

Chalking Policy

All groups, organizations or individuals must comply with the following regulations:

1. Size and dimension are restricted to a 5-foot by 5-foot square.
2. Groups must separate their own chalking by at least 15 feet; however, other groups may chalk in between spaces.
3. No sealants or fixatives may be used to permanently or semi-permanently adhere chalking.
4. All building steps, ramps and awning-covered areas are considered portions of the building and therefore are restricted from being used for chalking.
5. The group's name MUST appear somewhere in the content of the chalking.
6. One group's chalking may not touch or overlap another group's.
7. A group must obtain a permit for EACH announcement.
