

# SCC Newsletter

## Decisions of SCC

- 👉 Approval of Andrew Whaley to serve as the Masters level student on the Dean of Faculty search committee
- 👉 Next Meeting's agenda item: "What does diversity mean?"

## Did you Know??

Want to go to a conference or event and need some assistance to cover the cost? Apply for a scholarship through SCC! For more information, contact Jenny Sumner, Scholarship Committee Chair.

jenny.sumner@students.ctsnet.edu

## Student Organizations

**Juniors!** Come out for the ice cream social and water balloon toss on Friday, October 2 at 3:15 in the NRH.

**Spouses Of Seminarians** continues to host Friday Night Picnics each week in the Village at 6:00 p.m. All are invited!

**The Fellowship for Theological Discussion** meets each Friday, 4:00 @ Thinking Man! Upcoming Topics include:  
10/2 How can people of faith think about or engage in health care reform?  
10/9 Diversity in the church--more than just race, gender, and class?  
10/16 Thinking about God for those with Autism--How can we respond?

Join the struggle against AIDS in our community! Walk or run with us in the **AIDS Walk/Run 5K** at Piedmont Park. To sign up, email [melissa.mcnair@students.ctsnet.edu](mailto:melissa.mcnair@students.ctsnet.edu)

**We  
Need  
You!**

Help us find a name for the new SCC Newsletter!

Send all submissions to [melissa.mcnair@students.ctsnet.edu](mailto:melissa.mcnair@students.ctsnet.edu)

## What's Happening?

Oct 2 🎯 Low Country Boil 6:35

## 👉 Looking Ahead 👈

Nov 6-8 Conference on Ministry

Nov 15 WIIM Event: Families in Ministry

Nov 20-22 SOA/WHINSEC Vigil

Dec 5 Christmas Banquet

## *A Moment with Marty...*

What's happening with the cell phones in the NRH?

"We certainly wish reception could be better for everyone. An outside contractor installed a repeater system to rebroadcast outside cell signals inside the NRH. The outside signal strength for T-Mobile, Verizon and Sprint is approximately 94db, which is borderline for outside calls – a loss of 2db's bringing the signal inside is not sufficient for inside calls. AT&T and carriers who use AT&T towers (i.e. TracFone) work great inside the building since the tower is only 1/2 mile distant. Before we suggest everyone migrate to AT&T we are looking for one more independent engineer to help us analyze the situation."

**NEW!**

## CTS Deacon Program

**Purpose:** to provide a resource for students during their time in seminary, specifically during times of transition.

**Who:** 6 students selected by the Office of Student Services will serve as deacons

**How:** Through their availability to listen and support, to maintain the importance of confidentiality while understanding that the safety of the student, their own safety, and that of the CTS community must always be considered, and in providing information regarding resources both in and outside the seminary community
