

GPSC Purpose and Goals

All graduate and professional students are automatically members of GPSC.

Our goal is to have two representatives from every department on campus to serve on the Graduate and Professional student council. The GPSC has monthly meetings to discuss any issues or concerns of the graduate students. GPSC representatives serve as the graduate student representatives on university administrative committees including the graduate council, library council, SGA, etc. GPSC will therefore also discuss any concerns or questions from the university administration to provide them with an overall response from the grad and professional students.

GPSC is also an opportunity to meet other graduate and professional students. Several events for professional development and socializing will be planned each year.

Please attend our meetings to find out more information. If you cannot attend, view all meeting minutes posted on the blackboard site. Follow GPSC on Facebook or Twitter!

We are always welcome to your comments, ideas, and concerns!
Please share!
