

Oakland University
Student Congress

**Mentoring
Program Packet**

Welcome to the Oakland University Student Congress!

As a mentee, you will have the opportunity to shadow a current OUSC legislator or executive board member. You will be able to actively participate in legislative meetings, committee meetings, and any events that the Oakland University Student Congress is involved in and get hands-on experience in the student government arena at Oakland University. The Mentoring Program is a means by which to get your “foot-in-the-door” into the Oakland University Student Congress. This program is meant for incoming freshmen that are not yet eligible to become a legislator or anyone who would like to experience student government on campus before committing to a position.

Enclosed you will find the following:

- A Mentoring Program Application
- A Legislator Application
- A Legislator Signature Sheet

The Mentoring Program Application must be filled out by all prospective mentees in order to be considered for the position. After the mentee has obtained a grade point average by completing at least one semester at Oakland University (or if the mentee already has an established GPA and would like to now become a legislator), the Legislator Application and Legislator Signature Sheet must also be completed. All of these forms can be mailed or turned into the Oakland University Student Congress office in the basement of the Oakland Center (62 OC).

If you have any further questions, please feel free to contact the Oakland University Student Congress office at (248) 370-4290. We look forward to receiving your application and your continued involvement in the Oakland University Student Congress. Welcome Aboard!!
