STUDENT ASSOCIATION MISSION STATEMENT

The Student Association exists as a right and for the benefit of the student body. It is the highest duty of the Association to consider the interests and needs of the students above all else. To that end, the Student Association shall strive to create a university community where the needs of students are met, the rights of students are represented, and the voice of the students is heard.

MESSAGE FROM THE SA PRESIDENT

Dear Fellow Students,

The Student Association has had a very productive year working on initiatives from student safety, diversity and inclusion, and expanding funding, among other initiatives that strive to improve the student life experience at SU. We would like to thank Chancellor Syverud, Senior Vice President and Dean of Student Affairs Rebecca Reed Kantrowitz, and other members of the administration for your continued partnership and guidance on matters relating to undergraduate student life.

The Student Association would not have accomplished all that it has this year without the support of the entire organization.

From the Directors to the Assembly Representatives, they all went above and beyond. This year was a special one. We had a new constitution, a new President/Vice-President Ticket administration, and a new Chancellor leading our University.

We also cannot forget to thank our advisors Kerry Foxx, Dave Sargalski, Kevin Costello, and Stephanie Fortier in the Office of Student Activities for their continued help and support

On behalf of the Student Association, we are excited to share our 2014 Annual Report. Thank you again for your continued partnership.

INTRODUCTION

One year ago, when we decided to run for SA President and Vice President, we set out with an ambitious platform. Our primary goals were to **reform** the Student Association, **reconnect** the Student Body, and **redirect** the campus community to a new era in SU's history. We believe strongly in making promises we can keep and making Student Association accountable and transparent to our constituents. As such, here are some of our accomplishments this year as organized by our platform:

Reform: During the course of the year we successfully created the committee on the budget to review and approve the 2014 Student Association Operating Budget. We increased the number of retreats and leadership development opportunities. We restructured the Board of Election and Membership to have a greater focus on New Member Orientation programs. See the BEM report for more details.

In addition during the Spring 2014 semester a collective group of student organizations called THE General Body successfully pushed for the Student Association to be able to have an email listserv to the entire undergraduate student body. Part of the reform phase was to get this access and we thank THE General Body for their help.

Reconnect: During the Fall 2014 semester we successfully established the Student Affairs Task Force. The Student Affairs Task Force is a coalition of student leaders from the various facets of SU in order to establish a Student run conference during the Spring 2015.

Redirect: Our last phase entitled redirect is our decision to start pushing the Student Association to tackle bigger issues such as Tuition, Health and Wellness, and the creation of student facilities. As such a Committee on Tuition has been created with the administration to review and create a greater dialogue on tuition cost; we have also been active participants in discussion, about a Tobacco and Smoke Free Campus. Additionally, we have pushed for the administration to create a new Student Center, a new Health and Wellness Center and a new Recreational Facility.

In addition to the above accomplishments we have also:

- * Successfully lobbied for the Office of Academic Affairs to fund 1/3 of the Collegiate Readership Program.
- * Successfully funded additional Destiny USA shuttle buses for SU Undergraduate Students
- * Successfully implemented two student-designed trash receptacles on Marshall Street and Comstock Avenue to promote recycling and try to reduce littering
- * Successfully converted Haven Dining Hall into a Study Space
- * Sponsored an activity calendar for all RSOs to use through the Daily Orange Newspaper

During our last semester we wish to continue leading the Student Association in accomplishing the following initiatives:

- * Lobbying the University for a Medical Amnesty Policy
- * Creation of the Student Athletic Fee
- * Creation of the Student Affairs Summit
- * Creation of a Student Travel Grant

We are also proud of publishing the first ever SA Annual Report. We implore future SA Government leaders to continue to use this model and for future members to use it in order to gain familiarity with our organization.

STUDENT ENGAGEMENT COMMITTEE

MISSION : The mission of the Student Association Student Engagement Committee is to gather constituent feedback regarding actions taken by the Student Association, as well as initiatives and courses of action suggested by the student body, and for coordinating events to facilitate such communication. It shall also be responsible for liaising between the Student Association and the Registered Student Organizations on campus.

MEMBERS :

Director: Brittany Moore '15 **Vice Chair** Eric Evangelista '17

Assembly Representatives:
Richard Ofosuhene '16, Lavina Sabnani '18,
Domenica Vera '18

During the Fall 2014 Semester I lead my team in passive and active ways in engaging the campus community on the issue of Sexual Assault on College Campuses. We partnered with the *Office of Health Promotions, Office of Students Rights and Responsibilities, Sexual and Relationship Violence Response Team* to **create a Consent Campaign**. This included a rebranding campaign and **bringing "Beat the Blame Game" to campus**. Beat the Blame Game is the first in a series of several training session to educate students to end sexual Assault on College Campuses. I also provided feedback from my committee in the creation phase of the PR campaign. Through this collaborative process we decided on a campaign and slogan that will be launched in Spring 2015.

As Director of Student Engagement I served on the **Chancellor's Workgroup for Sexual Violence Prevention, Education and Advocacy**. I worked with others to hear the concerns and gaps in resources since the realignment and identify gaps in the campus culture around sexual assault. Members of the Workgroup and I will **created a comprehensive document acknowledging the gaps and providing recommendations to fill them.**

Additionally, the Student Engagement Committee conducted **two focus groups on alcohol statistics**. Some of our results included: students support a student center open 24/7 that has alcohol alternatives, students don't report or seek help for friends extremely intoxicated because they are unclear about policy and they are afraid of disciplinary action and students feel the Think About It online program is "better than sitting in assemblies."

We also **created a rating campaign and parody the #1 party school ranking** and brought awareness to other facets of SU. This material will be used during next semesters RSO outreach.

ADDITIONAL ACCOMPLISHMENTS THIS YEAR

During the Spring 2014 semester the Student Engagement Committee focused on compiling data through surveys. **The committee conducted two surveys: one internal survey to assess recent changes within SA and one campus survey on self-segregation.**

The self-segregation and diversity survey revived approximately 170 responses from students living on campus and showed that students believe self-segregation is still an issue.

To address this concern, committee members created the #ltoamSU event in the main quad to spread the word about inclusion and diversity. A video was created showing students participating in the event.

Towards the end of the semester we created two grants.

The **Inclusion Investment Grant** is a partnership with the Intergroup Dialogue Department to give students financing and supervision to create and implement a campus campaign that will raise awareness and education about issues of diversity and oppression.

The second is the **Campus Involvement Grant**. Following the Lead of Chancellor Syverud, Student Association will use our monetary resources and Student Affairs supervision to give students opportunities to exercise their own ideas and autonomy to be the change they want to see at Syracuse University.

SYRACUSE UNIVERSITY

Please answer the following short questions to the best of your abilities about the issues of self-segregation and diversity on campus. These survey results will be completely anonymous and will only be used to help the Student Association and other members of the campus community make policy changes based on your feedback. If you have any questions, concerns, or comments about this survey, feel free to contact Sawyer Creasp at stcrasp@syr.edu

How would you rate the level of diversity present in the Syracuse University community?

Less diverse
 Fairly diverse
 Very diverse

Do you think self-segregation exists on campus?

Yes
 No

INITIATIVES FOR NEXT SEMESTER

* **RSO Outreach:** Each member of SEC and additional assembly representative will be the SA liaison to a group of RSOs. These representatives will be each RSOs specific relation to SA. The SA member will also have a better understanding of how specific RSOs, those of different tiers, function on a daily basis. In the future members will be able to use their knowledge of RSOs to better serve their needs.

* **Impact Week:** SEC will be partnering with (Residence Hall Association) RHA's Director of Civic-Engagement to co-facilitate impact week. This will involve SA reaching out to RSOs for opportunities for community service. RHA will work with residents and RAs to ensure that students will attend events to give back. Both SA and RHA will promote the week of giving back through social media channels. Impact Week will tentatively be in late March.

During the Spring 2014 semester the Student Life Committee focused on issues concerning Transfer Students. **The committee conducted a survey focused on the overall satisfaction Transfer students have at Syracuse.** The survey showed that an overwhelming majority of transfer students felt out of touch and lost.

In addition to the survey the Student Life Committee **lobbied for a change in the Office of Fraternity and Sorority Affairs Rush Policy.** The policy currently does not allow first semester transfer students to rush in greek life and the committee believes that this policy should be reviewed and redrafted to allow Transfer students who enrolled with a 3.5 G.P.A to be allowed to rush their first semester.

During the Spring 2015 semester the Student Life Committee will bring forth a resolution asking University administrators to review and changed the Rush Policy in regards to Transfer students.
