

Advisory Board Application 2011-2012

To link students to the University's Administration, there are several Advisory Boards within Student Government that work closely with administrators to relay student concerns and discuss new initiatives around campus. Boards meet approximately every two weeks to discuss issues directly concerning students and the University at large. The advisory boards are overseen by an appointed board chair who reports to the Student Government Chief of Staff Internal. Advisory boards are open to any undergraduate student and are selected through an application process run by the Student Government Executive Board.
